

Moran Hadad - Founder & President, Chaka

Moran is a visionary and successful entrepreneur with a Master of Arts in Civil Engineering, and a Master of Advanced Studies degree (DEA) in Augmented reality and Artificial Intelligence. Furthermore, is currently involved in cutting edge research in neuroscience. Moran has always been fascinated by the merger of social progress and technology. This fascination has been nurtured by his decades-long work in emerging markets. Moran effortlessly blends his own knowhow with his ability to inspire and get the best out of others. This has enabled him to bring together local entrepreneurs, governments, funding providers and companies in order to successfully achieve common goals.
