

CV

Maja ZUPANČIČ PINTAR

Senior Consultant at GFS Institute

Ms. Maja Zupančič Pintar, BSc. Sociology. She graduated at University of Ljubljana, Faculty of Social Science.

An expert on fields of digital transformation, interoperability, eInclusion, IOT Consulting, and ICT Revision and Consulting. Lately, she has focused on existing ICT Systems revision and guiding companies into digital transformation aligned with Industry 4.0 objectives. She has a profound knowledge in preparing blueprints for public tenders and applying for EU funds. She is also advising on JIT Management and Systems integration fields.

She was a member of international project OneStopGov, A life-event oriented framework and platform for one-stop government, and a member of Program Advisory Committee of CeGD, Center for eGovernance Development. CeGD influenced information society development in 87 different countries that included 2.700 customers/partners. She was also a team leader for various ICT projects. As a project manager and chief editor, she was responsible for several other governmental projects and managed EU funds for IT projects. She has been lecturing in various EU states, and consulting governments on how to establish e-government projects. Additionally, she represented Slovenia in bilateral EU IT groups.

Ms. Zupančič Pintar started her career serving as a public administration official. Prior to her public career she has worked for a leading newspaper company, where she analyzed data and prepared reports on the topic of public opinion related issues. In 2018 she joined the new European Blockchain HUB cooperative, where she, as Chief of Academy operations, is responsible for global events, international coordination and PR. In addition, she is also a senior consultant at GoForSight Institute. She is editor and a co-author of the book "EGovernment - an alliance with users".
