

Darja Virjent, International ESG Certified Practitioner and Sustainability Expert at Edutrain.me

Darja is certified at International Centre for Sustainability and Excellence as Sustainability ESG Practitioner. Her knowledge and interest in the field of sustainability date back to a period when the concept just started to evolve. She was among the selected twenty participants for the Sustainable Leadership program organized by the Business Economic faculty. In 2017, Darja was a representative for the City of Ljubljana as an honorary member of the »Circular Cities Network », which operated under the Ellen MacArthur Foundation. She has a Certificate for Sustainable Business Transformation Manager, organized by M3trix and CER SLO, Center for energy-efficient solutions.

She challenges herself with ideas and projects on how to change business models and develop products and services in line with ESG sustainability goals. She was responsible for the development of the concept of circular business model, within the European project APPLAUSE, which lasted for three years and ended in December 2020. She is recognized above all for her ability and passion to develop and improve business initiatives in a more sustainable manner.
