

Mojca Markizeti,

vodja trajnostnega razvoja in regulative **Head of Sustainability and Regulatory Affairs**

SLO:

Mojca Markizeti ima 20 let izkušenj z implementiranjem načel trajnostnega razvoja v podjetja in skupnosti, z razvojem poslovnih strategij, managementom sprememb v podjetjih, managementom inovacij. Po delu v okviru Varuha človekovih pravic Slovenije je vodila mrežo UNGC za Slovenijo, kjer je bila v vlogi svetovalke za trajnostne poslovne strategije podjetij, pa tudi kot svetovalka za oblikovalce politik in državne strategije trajnostnega razvoja. Že šesto leto dela kot vodja trajnostnega razvoja in regulative v Iskraemeco, d.d, kjer je strateški partner vodstvu podjetja. Podjetje Iskraemeco je del verige vrednot v energetskega managementu – in ravno tu se mora zgoditi največja sprememba, če želimo doseči globalne cilje razogljičenja in ohraniti kakovost življenja za naslednje generacije. Energetska učinkovitosti je ključni izziv tega desetletja in inovativnost je še večjega pomena kot sicer. Pod Mojčinim vodstvom je Iskraemeco zasnoval projekt Zeleni Pingvin, ki je bil s strani Climate-KiCa (EU Innovation huba na področju klimatskih sprememb) med 120 idejami s celega sveta, izbran med tri najbolj transformativne ideje leta 2020.

Mojca brezpogojno verjame v sinergije med kreativnostjo ljudi in zmogljivostjo tehnologije, v potencele »no-box« razmišljanja V njenem življenju in delu jo motivirata radovednost in občutek za boljši svet.

ENG:

Mojca Markizeti has 20 years of experience in sustainable development practices, strategies, change management. After working within Human Rights Ombudsman of Slovenia, she was leading UNGC network for Slovenia, where she was in the role of consultant for sustainable business strategies for companies as well as consultant for policy makers, government for adopting the 2030 Agenda and implementing SDGs to the country strategy.

Mojca Markizeti has 20 years of experience in implementing the principles of sustainable development in companies and communities, with the development of business strategies, change management and innovation. After working on topic of Human Rights within the office of Ombudsman of Slovenia, she led the UNGC network for Slovenia, where she was a consultant for sustainable business strategies to companies, as well as to policy makers within national strategies for sustainable development. She has been working as the head of sustainable development and regulation at Iskraemeco, d.d. for six years, where he is a strategic partner to the company's management. Iskraemeco is part of the value chain in energy management - and this is where the biggest change needs to happen if we are to achieve global decarbonisation goals and maintain quality of life for future generations. Energy efficiency is a key challenge of this decade and innovation is even more important than ever. Under Mojca's leadership, Iskraemeco designed the Green Penguin project, which was nominated to be one of top 3 most transformative ideas in 2020 by Climate-KIC (EU Innovation Hub in the field of climate change) among 120 ideas from around the world,

Mojca unconditionally believes in the synergies between people's creativity and the capability of technology, in the potentials of "no-box" thinking. In her life and work, she is motivated by curiosity and a sense of a better world.

Kranj, 2021
