

Maria Blanco Herbosa

Environmental Specialist, Circular Economy Division, European Investment Bank.

Maria Blanco Herbosa is an Environmental Specialist in the Circular Economy Division of the Project Directorate at the European Investment Bank (EIB). With a background in forestry engineering, she has been working on large infrastructure projects for over 12 years, making them environmentally sound and sustainable. She is currently working on strategic matters related to circular economy, such as exploring emerging methodological, implementation and monitoring best practices, and is part of the Circular City Centre (C3) team, supporting EU cities in initiating or continuing their circular economy journey.
