

Bojan Stojanović, MBA
Vodja EU projektov

Bojan Stojanović že več kot 15 let dela na različnih področjih trajnostnega razvoja. Od zelenih komunikacij do restavracije rečnih ekosistemov, od razvoja trajnostnih izdelkov do večmilijonskih projektov na področju energetske učinkovitosti. Petrolovi diviziji energetske in okoljske rešitve se je pridružil pred tremi leti kot vodja prodaje energetske rešitve v javnem in korporativnem sektorju. Po dveh letih je vodil več milijonski portfelj projektov javno-zasebnih partnerstev na področju energetske obnove javnih zgradb in ulične razsvetljave, ter zagotavljanja energije kot storitve, kot je PPA, storitev na osnovi energetske prihrankov in energetske pogodbeništv, vse z ciljem hitrejšega zelenega prehoda in zmanjšanja emisij CO₂. V zadnjem letu je prevzel vodenje mednarodnih raziskovalno-razvojnih projektov na področju obnovljivih virov energije, baterijskih hranilnikov, sistemskih storitev in upravljanja mikro omrežij, večinoma financiranih s strani EU.

Bojan Stojanović, MBA
Head of EU Projects

For over 15 years, Bojan Stojanović has been active in different areas of sustainable development. These include green communications, river system restoration, sustainable product development and multi-million energy efficiency projects. He joined Petrol's energy and environmental solutions team three years ago as head of sales for public and private sector energy solutions. After two years, he was working with a multi-million portfolio of public-private partnerships tackling energy renovations of buildings and street lighting, as well as the provision of energy as a service – such as PPA, a service based on energy savings, and energy contracting. All with the goal of quickening the green transition and reducing CO₂ emissions. In the last year, he was put in charge of leading international research and development projects, mostly financed by the EU, that are addressing renewable energy sources, battery chargers, system services and micro network management.
