

Thanh-Tâm Lê is Director of Impact and Performance at EIT Climate-KIC. His main area of work is on systems transformation at national, regional and local scales, and he is actively involved in several large EU projects focusing on topics such as adaptation and resilience to climate change, nature-based solutions and climate services.

He has been the KIC's Director for France and the Mediterranean, set up and led the KIC's Climate Innovation Ecosystems programme and coordinated the H2020 MARCO project on the EU market of climate services.

A classical concert violinist (Paris Conservatory, Laureate of the Menuhin Foundation) with an "ingénieur" degree from Ecole Polytechnique and a Ph.D. in mathematics from Paris University Denis Diderot (Université Paris Cité), he had previously set up and directed the Graduate School at Ecole Polytechnique. Prior experience includes positions as Lecturer and Dean at the Aerospace Institute in Toulouse (ISAE-SUPAERO) and being a member of IDEA League's Operational Board.
