

Petra Šeme

Energy manager (City of Ljubljana)

Petra Šeme serves as the Energy Manager for the City of Ljubljana, holding the responsibility for formulating strategies such as the SECAP (Sustainable Energy and Climate Action Plan) and overseeing the development and management of innovative projects related to renewable energy sources and energy efficiency. While her academic background lies in social sciences, Petra Šeme has augmented her expertise in the energy field through practical experience and attained the prestigious EUREM (European Energy Manager) certification via an international educational program.

Her professional portfolio includes the successful initiation and management of various PPP (Public-Private Partnership) projects for the City of Ljubljana. Noteworthy among these are projects involving energy performance contracting (PPP EPC) and power purchase agreements (PPA). In these capacities, she has demonstrated a keen ability to navigate the intricacies of collaborative ventures between public and private entities, facilitating the realization of sustainable and energy-efficient initiatives.

Petra Šeme's professional ethos is encapsulated in her slogan, "the best and most sustainable is the energy we don't consume." This guiding principle underscores her commitment to minimizing energy consumption and aligns with her active involvement in campaigns and projects aimed at raising awareness about energy efficiency. Through her multifaceted role, Petra Šeme continues to contribute significantly to advancing sustainable energy practices within the City of Ljubljana.
